

Quality of Life

## FITTING PRODUCTS CATALOGUE

July 2021

# Product Excellences

In order to maintain product quality and consistency, AER is compromising our products to have constant ongoing investment in research and development, supported with strict testing and uncompromising quality control system.

We have been trusted by customers and real estate developers to supply bathroom fixtures and accessories to lots of hotel chains, residential, and commercial projects in Indonesia. Every product becomes a real synthesis of quality, design, and style to adapt modern and stylist lifestyle.

Sustainable development is our company's core idea, we always working hard on living with the eco-environment friendly & harmony. A variety of color combinations and unique design have become the mainstream of fashion family.

## Finest Material

Our product is equipped with the high-class brass material to provide maximum product longevity. With at least 59% of brass, we ensure our faucets deliver the water clarity from source. We also use superior quality for chrome coating with over 0.15 – 0.35  $\mu\text{m}$  and nickel coating 8 – 12  $\mu\text{m}$ .

Therefore, our product has passed the salt spray test withstand a life over 200 hours to prove maximum corrosion resistance.

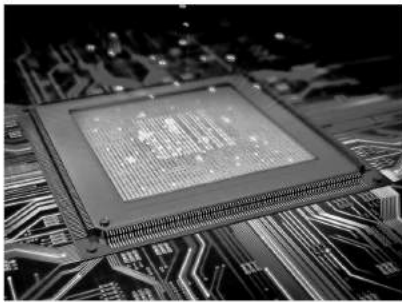

## Chrome Plating

A chrome surface increases the hardness, durability, and corrosion resistance of a surface, while also creating a shiny and smooth surface that is easier to clean. It also provides a bright and appealing finish and shining plating is the perfect solution for years of reliability.

## Ceramic Cartridge

We use precision and durable ceramic cartridge to resist high temperature, abrasion, and hazardous chemical property. With well-known cartridge brands Sedal and Hent, our cartridges provide remarkable anti-leakage mechanism supported with smooth switch. The endurance of our cartridge is up to 500.000 cycles, with maximum temperature of 90°C, and maximum pressure up to 7 kg/cm<sup>2</sup>.

### Sensor Technology

Using proximity sensor and mechanism to accurately response to the presence of hand or in close proximity. AER Sensor products also using Microcomputer Control Technology that offers severe microcomputer control technology which able to precisely measure the duration and frequency of use, with an accurate volume of flush.

### NEOPERL® Aerator

Our products use worldwide aerator brand called Neoperl for full experience of comfort and utilization. As for the advantages of Neoperl aerator; providing precision water stream straightness and diameter, reducing splash by aerating stream and eliminating side spray, also saving water and energy costs.

### Flexible Hose

Using the latest technology, our flexible hose has been proven to be the finest in the market. Our inner hose is protected by knitted nylon for excellent anti-leakage pressure resistance, then covered with stainless steel 304 and brass nut for the thread.

# Fitting Products Advantages

As a result of 20 years journey, we present to you the latest and advanced technologies. Our products are easy and comfortable to use, stable in quality, and efficient in energy. Each of our products represents perfect combination of quality, design, and technology.

## Export Quality

Products have been certified to export through worldwide market.

## NEOPERL® Aerator

Our products use worldwide aerator brand called **NEOPERL®** for full experience of comfort and utilization.

## Temperature control technology

Easily adjust the water temperature.

## 5 Years Warranty

5 years ceramic cartridge leakage warranty.

## Sensor Technology

Using proximity sensor and mechanism to accurately response to the presence of hand or in close proximity.

## Touch Technology

With a touch of button you can just override the water output.

## Microcomputer Control Technology

Our sensor offers severe microcomputer control technology which able to precisely measure the duration and frequency of use, with an accurate volume of flush.

## 1 Year Warranty

1 year Sensor Modul & Solenoid Valve warranty.

## Pull Out Faucet

Using long flexible to pull out the faucet.

## 360° Rotate

Can be rotated 360 degrees.

**3 Years Warranty**

3 years closet shower head leakage warranty.

**Anti-twist**

No more tripping hazards. The hose does not twist and remains flexible for every application.

**Knitted Nylon Technology**

Excellent anti-leakage and pressure resistance inner hose.

**EPDM Material**

Using finest high density synthetic rubber EPDM material for great pressure resistant and lead-free.

**Easy to Clean**

Soft rubber nepple helps to clean effortlessly.

**Smell Proof**

Prevent any bad smell and water waste.

**Insect Proof**

Prevent any insect.

**Double Side Strainer Cover**

Fit your taste with double sided cover.

**PUB Certified**

Certified for water efficiency performance from Singapore's National Water Agency.

A close-up photograph of a modern kitchen sink area. In the foreground, a sleek, curved chrome sensor faucet stands on a dark, veined marble countertop. To its right is a white rectangular sink. In the background, another identical faucet is visible, set into a second white sink. A small, decorative silver vase with green grass sits on the countertop between the two faucets. The background wall is a dark, textured grey, and a white sensor faucet is mounted on it. The lighting is soft and focused, highlighting the metallic sheen of the faucets.
