Product Excellences

AER has committed to give a full satisfaction, comfort, and convenience to our customer. One of the most important area in the house is kitchen. Nowadays, kitchen becomes choice of area where family cohere. Therefore, we provide products that will fulfil your needs to have comfortable, functional, and aesthetic kitchen.

For the past few years, we have focused on developing kitchen sink products to meets quality and design expectation for your home. Besides having stainless steel kitchen sink, we extend our product line up to granite sink. Granite sink gives functional and aesthetic features at the same time by having strong and durable material, as well as the beauty of sleek and stylish design. With the variation of sizes and colours that we provide, it will be the best choice for your dream kitchen.

Finest Material

Our product is equipped with high quality selection of material. We use high standard of 0.8mm – 1mm stainless steel 304 for corrosion resistance. For granite sink, it consists of 80% of quartz and 20% of resin. As a result, its surface is able to withstand high heat and scratches from any cooking activities leftovers such as boiling water, dirty sharp knives, and others.

Newest Design

We always do continuous development and innovation to improve not only our quality but also design wise. For our granite kitchen sink, we offer to you elegant yet functional design. With various type of sinks and choice of colours that we have, it will flexibly fit to your kitchen interior.

Easy to Clean

Our granite kitchen sink is formed under high temperatures then top with smooth, naturally non-porous finish. With no hazardous chemicals needed, cleaning the sink is never been easier.

Sturdy

Created from natural granite with sophisticated process, our granite kitchen sink is extremely solid and sturdy. It withstands hard impacts, high temperatures, and also scratch resistance.

Kitchen Product Advantages

Our products focused in comfortable use, and at the same time take into consideration of the water saving and environmental protection. Our products are combination of high tech systems, such as mute technology, eco water saving technology, product shining plating technology, and smooth technology.

Export Quality

Products have been certified to export through worldwide market.

Heat Resistant

Extreme heat will not interfere its durability.

Scratch Resistant

Our basin surface is resistant to scratches, marks or damages.

Sturdy

Our sink use solid and sturdy granite material, thus it can hold any impacts from hard objects.

Easy to Clean

Smooth surface helps to clean so easily.

Granite Kitchen Sink

Sturdiness in a beauty, the basic concept of how our granite kitchen sink is made. Created from natural granite with sophisticated process, our sink is extremely solid and sturdy. It can hold hard impacts and also has great heat and scratch resistance. With its smooth surface, cleaning our sink is never been easier. No hazardous chemicals are needed to clean our sink.
